Appendix H: Kensington Secondary School Communication Tree	178

Introduction

This plan is for Kensington Secondary School and has been designed to assist staff to prepare for a total fire ban, catastrophic fire danger rating, or a bushfire. Letters to staff and parents/carers are included in the appendix as well as notices regarding the plans of closures of the school.

The preparation of this plan has been developed in accordance with the *Emergency and Critical Incident Management Policy* and the *Principal's Guide to Bushfire* with input from local emergency management agencies.

Overview

General Information

This Bushfire Plan (BP) has been developed each year after consultation with:

- Families of students attending the School;
- Members of the emergency services (e.g. DFES, Town of Victoria Park and/or Community Emergency Services Manager).

The BP outlines required actions to prepare the school before the bushfire season as per the *Principal's Guide to Bushfire* (refer Appendix A).

The BP also outlines activities to be undertaken by staff and students at the different levels of a bushfire emergency including:

- On days of a Total Fire Ban;
- On days of a catastrophic fire danger rating;
- When there is a fire in the local district;
- When a bushfire is threatening or impacting on the site; and
- During the period immediately after a bushfire has impacted on the site (known as the 'Recovery Phase').

Distribution

The Principal will forward a copy of the site BP to the Regional Executive Director to be held in the regional office.

The Principal or delegated officer will forward a copy of the site BP to the emergency services.

The Principal or delegated officer will publish a copy of the school's bushfire plan on the school's website at the beginning of Term 1 each year.

- Details of the website to be provided to families of new students by the Principal or delegated officer during the enrolment process.
- The Principal will ensure that all new staff members, relieving staff and visitors are briefed about the requirements of the BP during the site induction process.

The Principal will also include bushfire season reminders and information in site newsletters when applicable. The School's Information Booklet, updated in Term 1 each year, includes detailed information about actions and procedures included in the BP.

All staff members are to receive pre fire season updates during staff meetings.

Communication

There are several levels of communication requirements at school level before, during and after bushfire events.

Preparing for Bushfire Season

- The Principal must ensure all students and staff are aware of the school's Bushfire Plan. It is also necessary to ensure that relief staff and parents/carers have been made aware of the school's Bushfire Plan. A copy of the school's Bushfire Plan should be published on the school's website. Suggested draft text for the school newsletter is available in Appendix A6 of the *Principal's Guide to Bushfire*.
- The Principal should establish contact with emergency services, including DFES, the local volunteer fire brigade, WA Police, the Town of Victoria Park and CESM.
- Schools located in bushfire prone areas need to incorporate key bushfire messages in their curriculum.
- At least twice a year the school community will participate in an emergency procedures drill
- Communication plans (including emergency contacts) need to be in place for evacuation or planned closure. See Appendix D for a Communication Plan, Appendix E for sample emergency contacts and Appendix F for a sample telephone tree.
- The school has a siren that is working and emergency communication equipment is available and working.
- Schools have in place systems to account for students, staff and visitors in an emergency, such as class rolls and visitor registers. Consideration should be in place for situations such as a loss of power affecting the ability to print from electronic sources.

Pre-emptive Closure

- The Department of Education Incident Controller (normally the Deputy Director General Schools or delegated officer) will make the decision to close a school based upon advice from Emergency Services and this will be relayed to the Principal via the Regional Executive Director.
- The Principal is to notify staff and parents/carers of closure using emergency contacts and the telephone tree. See also the draft letter to parents/carers in Appendix A7 of the *Principal's Guide to Bushfire* advising of pre-emptive closure, being mindful of parents' level of literacy and understanding of English.
- All other necessary parties are advised including (but not limited to) other schools that may have siblings at your school, on site contractors, bus contractors and the Parents' and Citizens' Association (P & C).
- Notice of Planned Temporary School Closure should be posted as per the *Principal's Guide to Bushfire*, both physically at the school and electronically on the school's website.

During Evacuation

- The school will contact their Regional Executive Director and the Department's Media Unit.
- The school will contact parents/carers via phone or in person, ensuring they have a mobile phone contact number for the school. (It would be preferable that parents restrict calling the school at this time to emergency calls only).
- The official broadcaster of Emergency Events is ABC radio. Your local station will be ABC local radio. They will provide up to date information during a bushfire event in your area.
- The DFES website provides up to date information on fire events. Refer to <http://www.dfes.wa.gov.au/>.

NOTE: DFES uses the national Emergency Alert system to send community warning messages via mobile telephones in affected areas. (Information can be obtained from <http://www.dfes.wa.gov.au/pages/default.aspx>).

The Principal communicates directly with Regional and Central Office personnel including any media communications. **Staff should not comment directly to media.**

Page 5 of 19
Reopening the School

- The Regional Executive Director is to advise the Principal when the school can re-open.
- Parents/carers need to know when the school is reopened. In the event of a pre-emptive closure details are contained in the template letter (*Principal's Guide to Bushfire* advising of pre-emptive Closure – Appendix A7).
- The Notice of Planned Temporary School Closure should be physically removed from the school premises and website.
- All parties that were advised of closure (e.g. bus contractors, P&C) should be advised of reopening.

Types of Fire Event

In the event of a Total Fire Ban, catastrophic weather warning or bushfire, the **BP** will be activated.

1. Total Fire Ban

In the event of a Total Fire Ban the **BP** will be invoked; refer to *Principal's Guide to Bushfire* for all procedures.

This means:

- No fires must be lit or used in the open air;
- All open fires for the purpose of cooking or camping are not allowed; and
- 'Hot work' such as metal work, grinding, welding, soldering, gas cutting or similar is not allowed unless there is an exemption.

The Department of Fire and Emergency Services advice is that chainsaws, plant or grass trimmers or lawn mowers can be used during a total fire ban in suburban or built up areas which are cleared of flammable material, but not in bushland or other areas where their use is likely to cause fire.

It is also necessary to ensure:

- The equipment or machinery is mechanically sound; and
- All reasonable precautions are taken to prevent a bushfire starting.

It is recommended postponing the activity altogether to minimise the risk of fire.

Individuals could be fined up to \$25,000 or jailed for 12 months or both if the Total Fire Ban is ignored.

For information on activities that can or cannot be carried out during a Total Fire Ban visit www.dfes.wa.gov.au/totalfirebans/Pages/TotalFireBanWhatCantIDo.aspx.

If the information required is not available from the website, telephone the Total Fire Ban Information Line 1800 709 355.

This information is also available by visiting www.dfes.wa.gov.au.

2. Catastrophic Fire Danger

The Catastrophic Fire Danger Index (FDR) has been added to the Australia-wide FDR system since the 2009 bushfires in Victoria. If a fire starts in catastrophic conditions, its impact potential includes death or injury to people and destruction of buildings.

Category	Fire Danger Index (FDR)	Action
Catastrophic	100+	Schools on Bushfire Zone Register closed on instruction from Deputy Director General Schools, through Regional Executive Director. School to invoke communication plan and cancel bus services.
Extreme	75-99	Monitor DFES website
Severe	50-74	Monitor DFES website
Very High	32-49	Normal school operations
High	12-31	Normal school operations
Low-Moderate	0-11	Normal school operations

In the event of a catastrophic weather warning the **BP** will be invoked as per the flow chart at Appendix B (refer to *Principal's Guide to Bushfire* for all procedures and sample letters).

2.1 Planned Pre-emptive Closure

Regional executive directors will contact Principals of affected schools directly when a planned (pre-emptive) closure is to be invoked in a particular part of the State. The lead time for a planned closure varies depending on weather patterns, but every attempt is made to give Principals as much notice as possible to prepare written documentation for parents/carers. Schools should have telephone trees in place to provide this information at short notice or after hours.

Once advised that your school is to undertake pre-emptive closure, you need to notify your school community that a closure is imminent. The Principal needs to send letters to parents/carers and provide each staff member with a memo that clearly states when the closure is planned to occur and that the school is on standby. It may be that between declaration of the closure and the day of closure, weather conditions improve sufficiently to remove the need to close and the school can therefore stand down its pre-emptive closure plans. The Regional Executive Director confirms with the Principal the final decision to close the school no later than **4.30 pm** the day before the planned closure. If weather conditions become less severe after **4:30 pm**, the closure goes ahead regardless, in order to provide a level of certainty to parents/carers.

The DFES is the final authority on advice about which schools are in danger and the level of risk at the time. The Deputy Director General Schools makes the final decision as to whether or not a planned closure of public schools is to proceed based on DFES's advice.

2.2 During a Planned Closure

The Principal must stay informed of current fire danger rating and any fire activity by monitoring local media and by regularly checking for updates with DFES.

2.3 Re-opening School

Parents/carers need to know when the Catastrophic FDR has been downgraded and that it is therefore safe for their children to return to school after a planned closure. The template letter to parents contains advice on how parents can monitor the situation. The school will need to put communication plans in place, such as placing a notice on the school website and providing a phone number for parents/carers to call for information about the reopening of the school. Consideration needs to be given to how parents/carers who do not have internet access or who have diverse needs (e.g. multicultural, special needs) will be provided with information.

3. Bushfire

In the event of a bushfire threatening the school, the school will notify DFES and the **BP** will be invoked by way of the school siren sounding continuously.

3.1. Bushfire – Watch community

During a bushfire, emergency services provide as much information as possible through a number of different channels.

There are three levels of warning:

- **ADVICE;**
- **WATCH AND ACT;** and
- **EMERGENCY WARNING.**

These change reflect the increasing risk to life and the decreasing amount of time you have until the fire arrives. Download a copy of DFES bushfire warning table from:

http://www.dfes.wa.gov.au/safetyinformation/fire/bushfire/BushfireChecklists/DFES_Bushfire-Warning_Levels.pdf

If the school is likely to be threatened by the fire, activate the *Emergency and Critical Incident Management* Plan immediately.

3.1.1 Advice

An **ADVICE** provides you with information on a bushfire that is not threatening lives or property, but may be causing smoke near schools. The actions required are

- To turn off evaporative air conditioners
- Undertake regular checks
- Patrol of the school for bushfire activity
- Pay special attention to the evaporative air conditioners.

3.1.2 Watch and Act

A **WATCH AND ACT** message tells you the fire conditions are changing and there is a possible threat to lives and schools. The Principal or delegate should contact the controlling agency to seek instruction as to whether to move students, staff and visitors to their pre-determined Safer Location on the site or evacuate.

The direction to evacuate by the Emergency Services Incident Controller will consider the location of the bushfire, the ability to travel safely to the selected evacuation point and the safest route to get there. In some circumstances, it may not be safe to evacuate.

3.1.3 Emergency Warning

An **EMERGENCY WARNING** is the highest level of warning and indicates **immediate** danger. In some circumstances it may start with a siren sound called the Standard Emergency Warning Signal (SEWS) to get your attention as the fire is about to arrive. SEWS is a distinctive sound that is broadcast immediately prior to major emergency announcements on radio, television and other communication systems. SEWS tells people 'You need to listen – there is an emergency in your area and you need to take action now'. It is used like a siren and is strictly controlled for use by an authorised hazard management agency only.

The Principal or delegate should contact the controlling agency to seek instruction as to whether to move students, staff and visitors to their pre-determined Safer Location on the site or evacuate.

The direction to evacuate by the Emergency Services Incident Controller will consider the location of the bushfire, the ability to travel safely to the selected evacuation point and the safest route to get there. In some circumstances it may not be safe to evacuate.

3.1.4 All Clear

An **ALL CLEAR** is issued when the threat has passed and the fire is under control. Fire-fighters will still be working to put out the last remnants of the fire and making the area safe, so it is important to remain vigilant in case the situation changes. It may still not be safe to leave the school to return home. Emergency services will advise when school students and/or staff can be released to go home.

3.2. Bushfire – Act

3.2.1 Response when a bushfire starts and the school is open

3.2.1.1 Evacuation Procedure

School to evacuate off-site on advice from DFES

Has the evacuation to the off-site safer location been approved and how long will it take to get there?

- All classes remain with their teachers and allocated education assistants.
- All other staff and visitors report to the Front Office.
- Teachers account for each child and identify students and support staff with known respiratory conditions.
- Doors and windows must be closed **and evaporative air coolers turned off**.
- Students and staff are to remain in classrooms unless directed otherwise by the Principal or delegate.
- The Principal or delegate is designated to manage evacuation routes & liaise with staff/school community members.
- The Principal or delegate will control this response until the arrival of DFES or emergency services who will then take over.
- Students and adults with known respiratory conditions will be identified and given special consideration.

Parent/Carer Access

Parents/carers will be informed when and where to pick up students upon advice from the school or through DFES or the Incident Controller.

3.2.1.2 Safer Location Procedure – if evacuation is not possible

School to remain on site on advice from DFES.

- All classes remain with their teachers and allocated education assistants.
- All other staff and visitors report to the Office Area.
- Teachers account for each child and identify students and support staff with known respiratory conditions.
- Doors and windows must be closed and **evaporative air coolers turned off**. Students and staff are to remain in classrooms unless directed otherwise by their Principal.
- The Principal or delegate is designated to manage evacuation routes and liaise with staff/school community members.
- The Principal or delegate and OHS officer will control this response until the arrival of the DFES or emergency services who will then take over.
- Students and adults with known respiratory conditions will be identified and given special consideration.

Parent/Carer Access

Parents/carers advised **NOT** to pick up students and to monitor local media for specific access information.

3.2.2 Response when a bushfire starts and the school is closed

If the Department of Education Incident Controller makes a decision on school closure based upon advice from Emergency Services the Regional Executive Director will inform the Principal of delegate of closure.

The Principal or delegate is to notify staff and parents/carers of the closure using the emergency contact list.

The Department's Media Unit will utilise media outlets to make public announcements of school closures, temporary alternative accommodation and contact number(s) for further information.

The Department's Incident Controller in consultation with DFES will inform the Regional Executive Director when the school can reopen, who will inform the Principal or delegate accordingly.

3.2.3 Recovery

The priorities for the school during recovery are

- Health and safety of individuals;
- Social recovery; and
- Physical (structural) recovery.

General

- When possible, return to normal routine as soon as possible.
- Attend to staff and student welfare, considering counselling support.
- Provide information for families and the community of any impact (including if there is none) on the school and school routine following the bushfire.
- Undertake a check of any equipment or stock used and arrange for replacement.
- Address any physical damage to the school
- Contact Building Management and Works to commence repairs. The Department should be advised of any damage caused by the bushfire.
- Attend to security if necessary; contact Head of Security at Central Office on 9264 4825.
- Manage administrative details including insurance.

Debrief

- What worked, what didn't?
- Was anything overlooked?
- What could you and your staff do better next time?
- Should roles change?
- If changes are made, incorporate them into the formal plan and advise the appropriate parties including staff and other authorities.
- Share the knowledge with other schools.
- Test the revised bushfire management plan and procedures.

For further details and contacts refer to the Recovery Section of the *Emergency and Critical Incident Management Plan* and *The Principal's Guide to Bushfire*.

APPENDICES

Appendix A: COMPLIANCE: Bushfire Preparation Checklist

	Department of Education	Bushfire Preparation Check List for the Summer Months
---	------------------------------------	---

**Principals should be thoroughly familiar with their current plans for dealing with bushfires.
All staff members should be aware of their responsibilities in accordance with the plans.**

MANAGEMENT ACTIVITIES

Tick when task has been completed, or write NA if not applicable(☐)

Evidence

		Evidence
The School <i>Emergency and Critical Incident Management Plan</i> provides a plan for dealing with bushfires. Schools on the Bushfire Zone Register must also have a separate stand-alone bushfire plan.	✓	BP document
Principal is thoroughly familiar with the schools' current <i>Emergency and Critical Incident Management Plan</i> and where applicable the stand-alone bushfire plan.	✓	I have a copy of all documents and have read them
Students, staff, relief staff and parents/carers have been made aware of the school bushfire plan.	✓	Staff meet minutes Letter to families BP posted on website
The bushfire plan has been reviewed prior to the bushfire season and a copy forwarded to the local education regional office.	✓	Staff meet minutes
The Principal and liaison officer have established contact with local emergency services including DFES, the Department of Parks and Wildlife (if relevant), the local volunteer fire brigade, WA Police, Local Emergency Management Committee (LEMC), local government representative or Community Emergency Services Manager (CESM) (if there is one for the area), and incorporated their feedback into the plans (as required).	✓	Town of East Vic park Kensington Fire Station DFES
Emergency Services, outlined above, are informed of your nominated pre-determined Safer Location as part of your Emergency Critical Incident Management Plan procedures.	✓	Town of East Vic Park Kensington Fire Station DFES
Schools on the Bushfire Zone Register understand the bushfire warning system (refer DFES website page 8) and the Emergency Alert telephone warning system (www.emergencyalert.gov.au).	✓	
Schools know how to turn off evaporative air conditioner units, including awareness of the location of the switches.	✓	Staff meeting 2.11.16
Communication plans are in place for directed evacuation or planned closure	✓	As per School Evacuation Plan
Evacuation drills practised prior to the start of the bushfire season.	✓	Term 4, early Term 1
School has a correctly functioning emergency warning or alert system.	✓	Checked by OSH Officer
Emergency communications equipment is available e.g. mobile telephones, hand-bell, portable radios and spare batteries.	✓	Mobile phones, bell

Class rolls and visitor register are readily accessible in an emergency to account for students, staff and visitors.	<input checked="" type="checkbox"/>	Rolls, register, evacuation plan
First aid equipment is available and staff members trained in first aid have been identified.	<input checked="" type="checkbox"/>	School nurse, many EAs trained
Evacuation kit should be checked at least once per term.	<input checked="" type="checkbox"/>	School nurse
Arrangements are in place in relation to school buses (notification of contractors if pre-emptive closure is invoked; availability of buses if off-site evacuation is required)	<input checked="" type="checkbox"/>	Deputy/Bus Co-ordinator calls
Procedures are in place to restrict use of machinery (e.g. mowers) in close proximity to bushfire fuels where they may start a fire on severe fire danger days.	<input checked="" type="checkbox"/>	BP
A Safer Location within the school building should be identified and prepared in the event that an off-site evacuation is not possible.	<input checked="" type="checkbox"/>	Depends on where fire is: assembly/home science, rooms 3-6

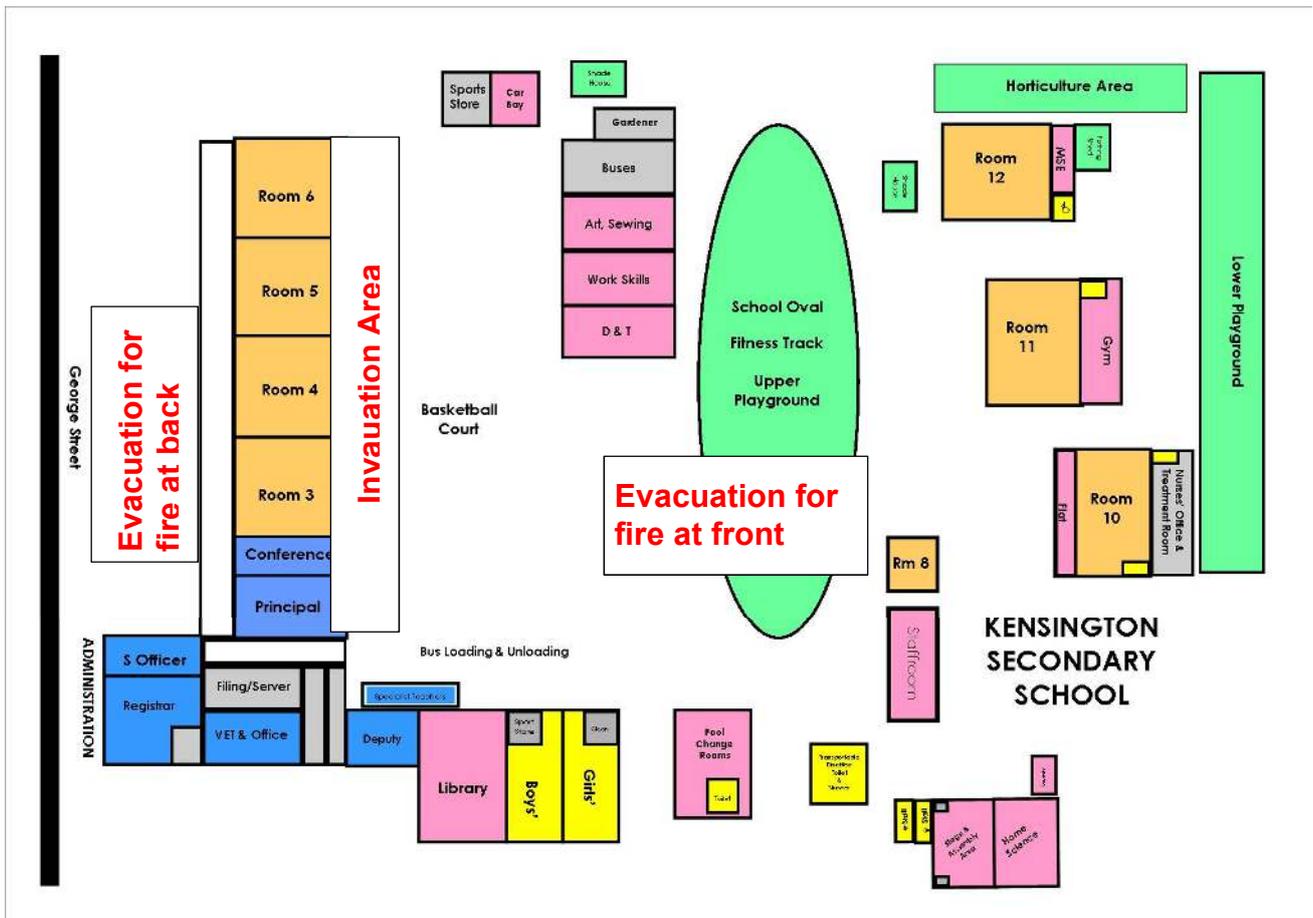

Appendix B: Catastrophic Event Flow Chart

In the event of a catastrophic weather warning the **Bushfire Plan** will be invoked as per the following flow chart: (refer to *Principal's Guide to Bushfire* for all procedures and sample letters)

PRINCIPAL'S RESPONSE TO Catastrophic Fire Danger Rating

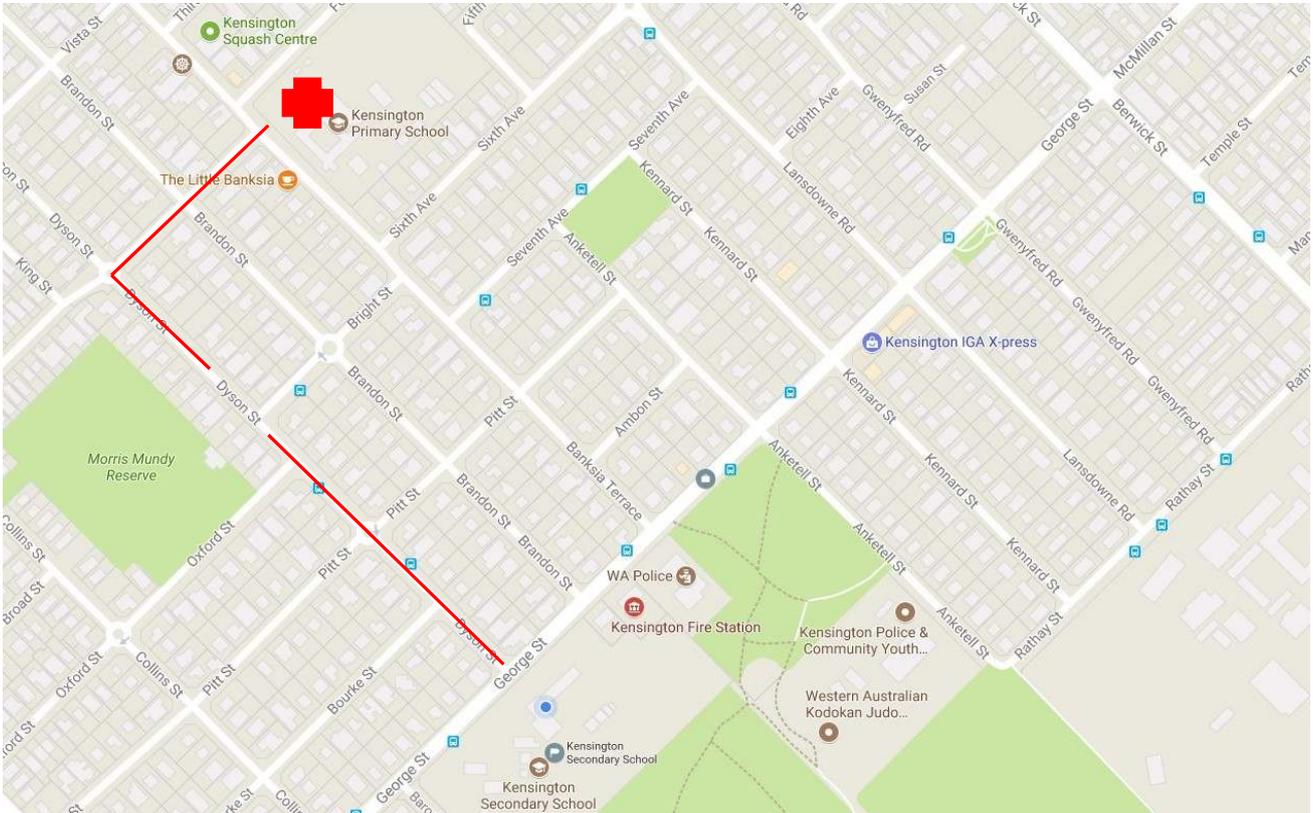

Appendix C: Kensington Secondary School Site Plan and Evacuation Points

NOTE: In the event of a whole school evacuation all persons on grounds will evacuate from the front of the school due West, via Dyson Street, to Kensington Primary School located on Banksia Terrace, Kensington.

Appendix D: Kensington Secondary School Whole Site Evacuation Route

Procedure:

- When directed by the Principal or DFES officer to evacuate the site, staff and students will cross George Street and proceed West along Dyson Street away from the school.
- They will continue along the footpaths to the second roundabout on View Street where they will turn right and continue directly to Kensington Primary School.
- They will enter the grounds to the rear of the school and seek shelter in the undercover area at the rear of the site located on the Fourth Avenue side of the school.
